Atlantic Tin Joins the United Nations Global Compact Initiative

Atlantic Tin is pleased to announce that we have joined the United Nations Global Compact initiative — a voluntary leadership platform for the development, implementation and disclosure of responsible business practices.

Atlantic Tin is proud to join thousands of other companies globally committed to taking responsible business action to create the world we all want. The UN Global Compact is a call to companies everywhere to align their operations and strategies with ten universally accepted principles in the areas of human rights, labour, environment and anti-corruption, and to act in support of UN goals and issues embodied in the Sustainable Development Goals (SDGs).

Launched in 2000, the UN Global Compact is the largest corporate sustainability initiative in the world, with more than 15,000 companies and 3,800 non-business signatories based in over 160 countries.

“In line with our commitment to these principles, Atlantic Tin is proud to become a member of the UN Global Compact. This commitment will ensure we align our sustainability strategies and actions with the UN sustainable development goals” noted Simon Milroy Atlantic Tin CEO”

About Atlantic Tin:

Atlantic Tin is a tin-focused mineral exploration and development company. Through its Achmmach Tin Project, Atlantic Tin controls one of the highest grade and largest new sources of tin supply globally, and one of the few sources of large-scale mechanised tin production in a low-risk jurisdiction.

The Company (75%) and its Joint Venture partners, Toyota Tsusho Corp (20%) and Nittetsu Mining Co (5%), are advancing the Achmmach tin project towards production in the Kingdom of Morocco.
